Our Story

"When our dad passed away, we were trying to figure out what we can do with our lives and if there was a way that we can honour him in the next project that we do together. Our mother and our late father were missionaries who devoted most of their time to aiding people in South Africa. Due to his generosity, our dad would primarily work on construction projects or just fix people's homes. We did assist him on many of those construction projects. Thus, creating this space served as a kind of healing exercise for us as well, allowing us to remember the days we spent building with our father. All the skills that we learned are from him."

19.09.23 In the loving memory of Enoch Tam

PRIME (80g)

We provide high-quality cuts of meat with minimal marinades, letting the freshness and natural flavour shine. Our serving suggestion is to grill them plain and pair them with dipping sauces.

Pork belly

Thinly sliced pork belly is tender and rich, offering a perfect balance of fatty, savoury flavour that crisps up beautifully on the grill.

Beef Short Rib

Thinly sliced beef short rib cut across the bone. Rich, juicy texture that caramelizes perfectly on the grill.

Chicken Skewers

Chicken skewers offer a flavorful, evenly cooked option, with the grilling process enhancing their smoky taste and making them easy to handle and enjoy.

Thin sliced meat

Thin slices of meat are ideal as they cook quickly and evenly, allowing for a crisp exterior while maintaining a juicy interior. This results in a more intense and well-balanced flavour.

ENOKI ROLLS

Enoki mushroom roll is a popular dish in Asian BBQ, where delicate enoki mushrooms are wrapped in thin slices of meat. The mushrooms' light, crunchy texture contrasts beautifully with the savoury, grilled meat. As the roll cooks on the grill, the meat becomes crispy, while the enoki mushrooms inside remain tender, absorbing the flavours of the marinade or seasoning.

GAME

Game meat refers to meat from wild animals. Our game meat is lean, rich in flavour, and is considered a healthier alternative to traditional meats due to its lower fat content and natural diet.

WAGYU (80g)

Wagyu is a term that refers to a specific breed of highly marbled beef originating from Japan. The name literally translates to "Japanese cow". Known for its luxurious tenderness, buttery flavour, and intricate marbling, wagyu is considered one of the finest types of beef in the world.

FORAGE

In Asian BBQ, grilled baby vegetables like baby corn, baby carrots, and baby marrows add freshness and balance to the rich meats. Exotic mushrooms such as enoki, and king oyster are often grilled to bring out their earthy, umami flavours. These vegetables complement the smoky, savoury meats and provide a light, flavourful contrast.
